

COVID SITUATIONAL UPDATE BY COUNTRY

AS AT 21 MARCH 2021

SINGAPORE BORDER CONTROL MEASURES

For Singapore Residents and Long-term Pass Holders

Singapore's borders are now reopening gradually to allow safe travel in limited numbers, with the necessary safeguards in place to ensure public health considerations are addressed.

You may visit these websites for more COVID-19 related information in Singapore:

- [MOH Website](#) for updates on the COVID-19 local situation and the relevant advisories; and
- [MCI COVID-19 Info Bot](#) for summarised information from various government agencies.

Short-term visitors are not allowed entry into Singapore, except those coming in under the Green/Fast Lane arrangements, the Air Travel Pass or with special prior approval.

All approved travellers must abide by the requirements on COVID-19 prevention and control and prevailing public health regulations of the receiving country. More information on the various entry requirements for various countries can be found [here](#).

- All Singaporeans and residents of Singapore are advised to defer all travel abroad. However, essential business and official travel will be permitted under Green/ Fast Lane arrangements
- Check the [MFA website](#) for the latest travel advisories to other countries/regions
- Check with the immigration authority or embassy of the destination country/region on the relevant health requirements imposed on travellers from Singapore, such as Pre-Departure Tests to be taken

COVID SITUATION UPDATE AND TRAVEL RESTRICTIONS

as of 21 MARCH 2021

Malaysia Covid situation update as of 21 Mar 2021

Confirmed cases 334,327

Recovered cases 318,247

Deaths 1,237

400K covid vaccine doses have been administered so far

- Malaysia has eased its public health restrictions and travel curbs starting Friday (March 5), a week after kick-starting its mass inoculation campaign for Covid-19.
- Daily cases have since tapered since Malaysia's National Covid-19 Immunisation Programme has started.
- The imminent lifting of the MCO comes as there are increasing demands to allow vaccinated foreign nationals to enter Malaysia via travel bubbles.

Indonesia Covid situation update as of 21 Mar 2021

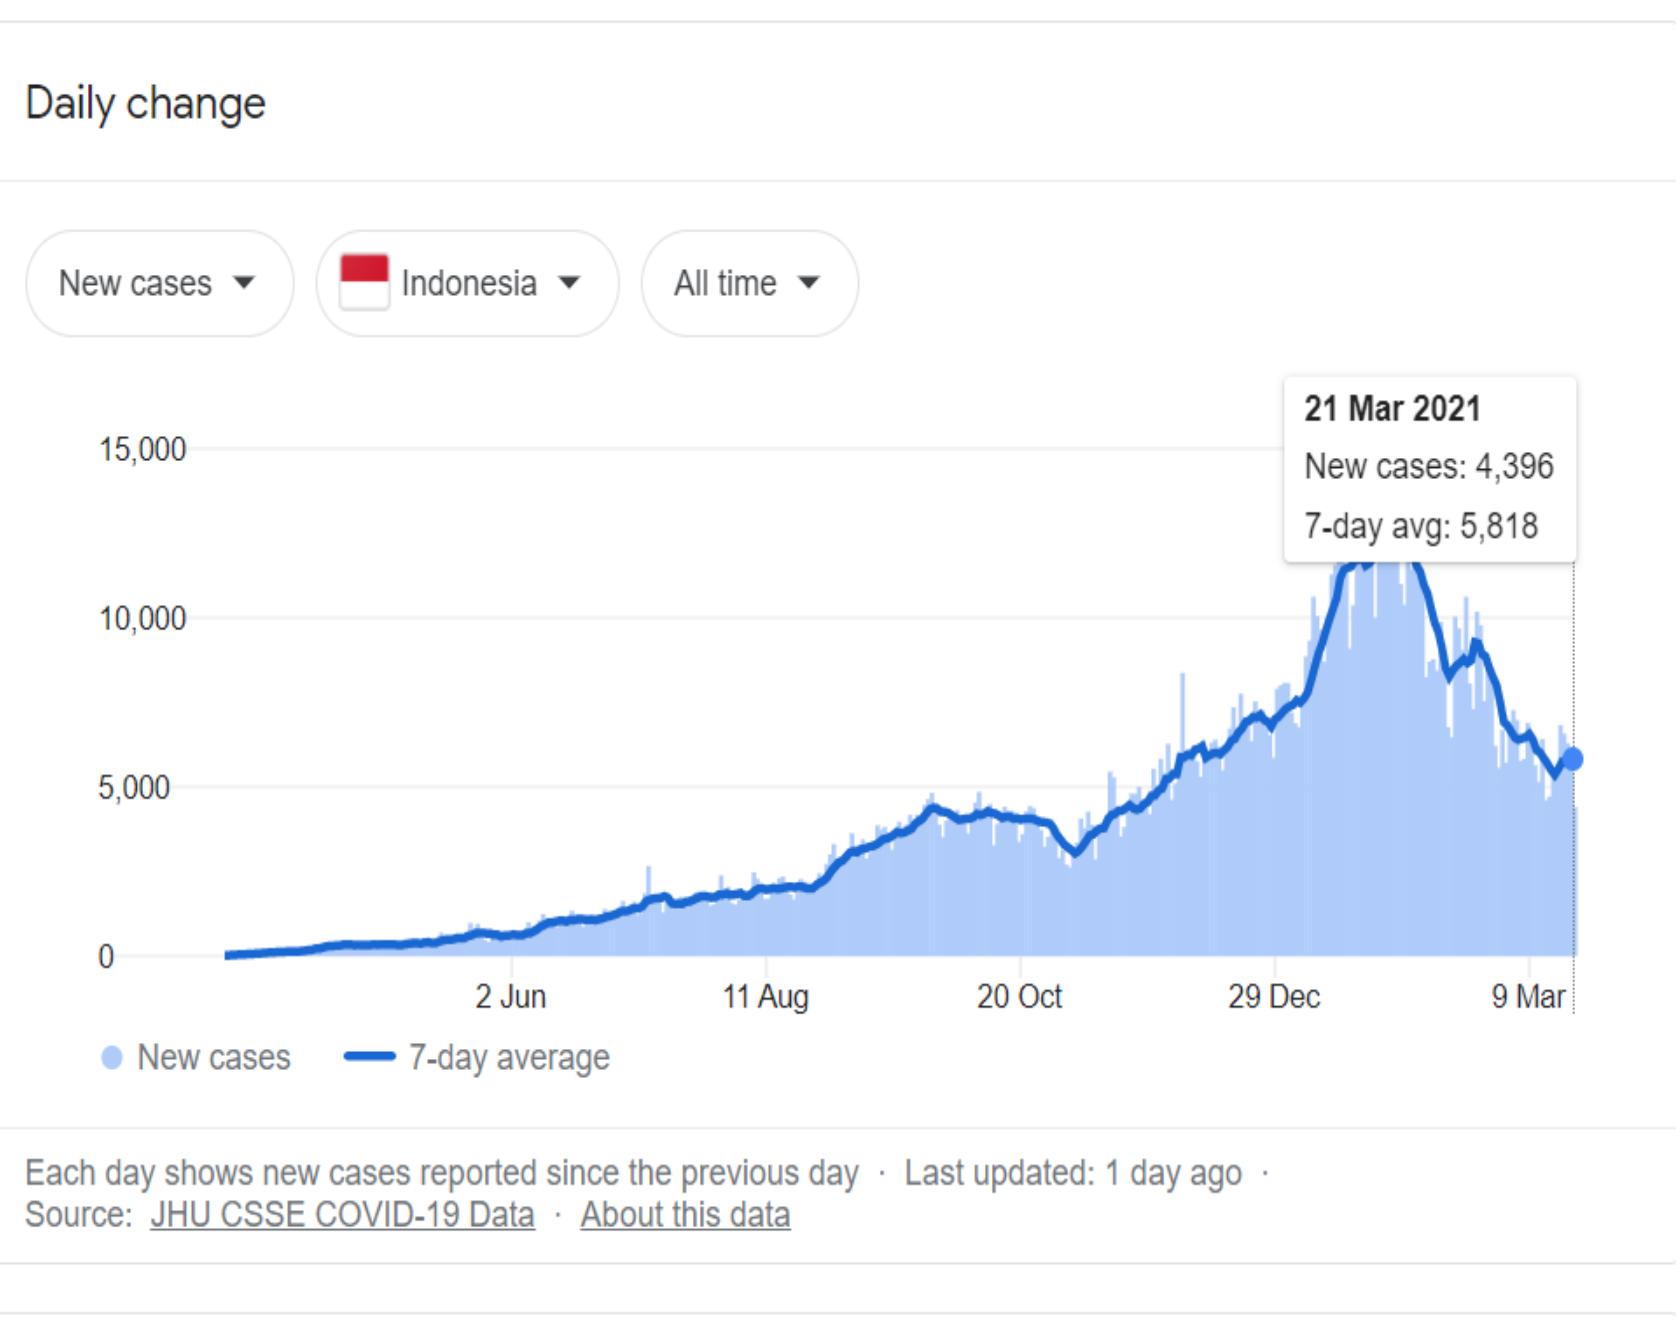

Confirmed cases 1.464 million

Recovered 1.296 million

Deaths 39,653

2,301,978 (0.85%) of population fully vaccinated

- Members of the public should take note that a temporary ban on the entry and transit by all foreign nationals is currently in force in Indonesia.
- The Indonesian government has notified MFA that this ban would also apply to foreign nationals travelling to Indonesia under all of Indonesia's Travel Corridor Arrangements (TCA) with other countries. Hence, Singapore residents would not be able to travel from Singapore to Indonesia under the Singapore-Indonesia Reciprocal Green Lane (RGL) / TCA.

Philippines Covid situation update as of 21 Mar 2021

Confirmed cases 671,738

Recovered 593,270

Deaths 13,006

240,297 covid vaccine doses have been administered so far

- Churches in Manila will be closed, eating inside restaurants banned and leisure travel outside the Philippine capital curbed under new COVID-19 rules unveiled on Sunday (Mar 21) as the country battles a resurgence in infections.
- The new rules will be in place for two weeks from Monday, 22 March and also apply to the surrounding provinces of Rizal, Cavite, Laguna and Bulacan.
- Philippine authorities have extended community quarantine restrictions of various levels nationwide through March 31 to stem the spread of COVID-19.

COVID SITUATION UPDATE AND TRAVEL RESTRICTIONS

as of 21 MARCH 2021

Thailand Covid situation update as of 21 Mar 2021

Confirmed cases 27,594

Recovered 26,450

Deaths 90

53,842 covid vaccine doses have been administered so far

- Travelers from [56 countries](#) can now enter Thailand under the Visa Exemption Scheme. However, these travelers still need to comply with Thailand's 14-day mandatory quarantine and show proof of a negative PCR test.
- The current area-based control measures have allowed most part of the economy to continue to operate as usual. However, looser restrictions mean that it could take longer before the country can virtually eliminate local infections, like it did with a nationwide lockdown last year.
- Some restrictions may still remain in place as the country starts its vaccine roll-out to reach its target of covering 50 per cent of the population by the end of this year.

Source: [JHU CSSE COVID-19 Data](#) · [About this data](#)

Summary as of 21 March 2021

Based on the current spread of Covid 19 in the various regions, we have made the following observations:

1. In SEA, except for the spread flattening in Singapore, infections in Malaysia and Indonesia are on a downward trend although case numbers are still very high. In Timor Leste the cases have suddenly started to spike with an average of 19 cases over the past week, while in the Philippines it has escalated to over 7 thousand cases with an average of over 6 thousand cases a day for the past week.
2. In Indochina, the spread has been on a downward trend with some plateauing out in Thailand, Vietnam, Nepal and Myanmar while in Cambodia cases continue to spike since the last week of February. However, with the protests in Myanmar, testing has been stopped and the figures may be inaccurate.
3. In South Asia, the spread is still very high and climbing to more than 40 thousand cases a day in India. In Sri Lanka, the number of cases have begun to decrease, although still being in the range of 325 daily for the past week.
4. In East Asia, the spread in Japan is still high with an average of more than 1000 cases daily over the past week. However, Mongolia cases have begun to climb again with an average of more than 150 cases daily for the past week. Cases remain low in Taiwan and Hong Kong, while in China the numbers are flattening out.
5. With covid vaccinations having started in many Asian countries, it is hoped that numbers will begin to be controlled. However, reports in only some countries indicate the percentage of population that has been fully vaccinated. As some vaccinations require two doses, the number of doses administered do not indicate the number of people who have received the full vaccination. Timor Leste is expected to start vaccinations in April.
